

Contoh

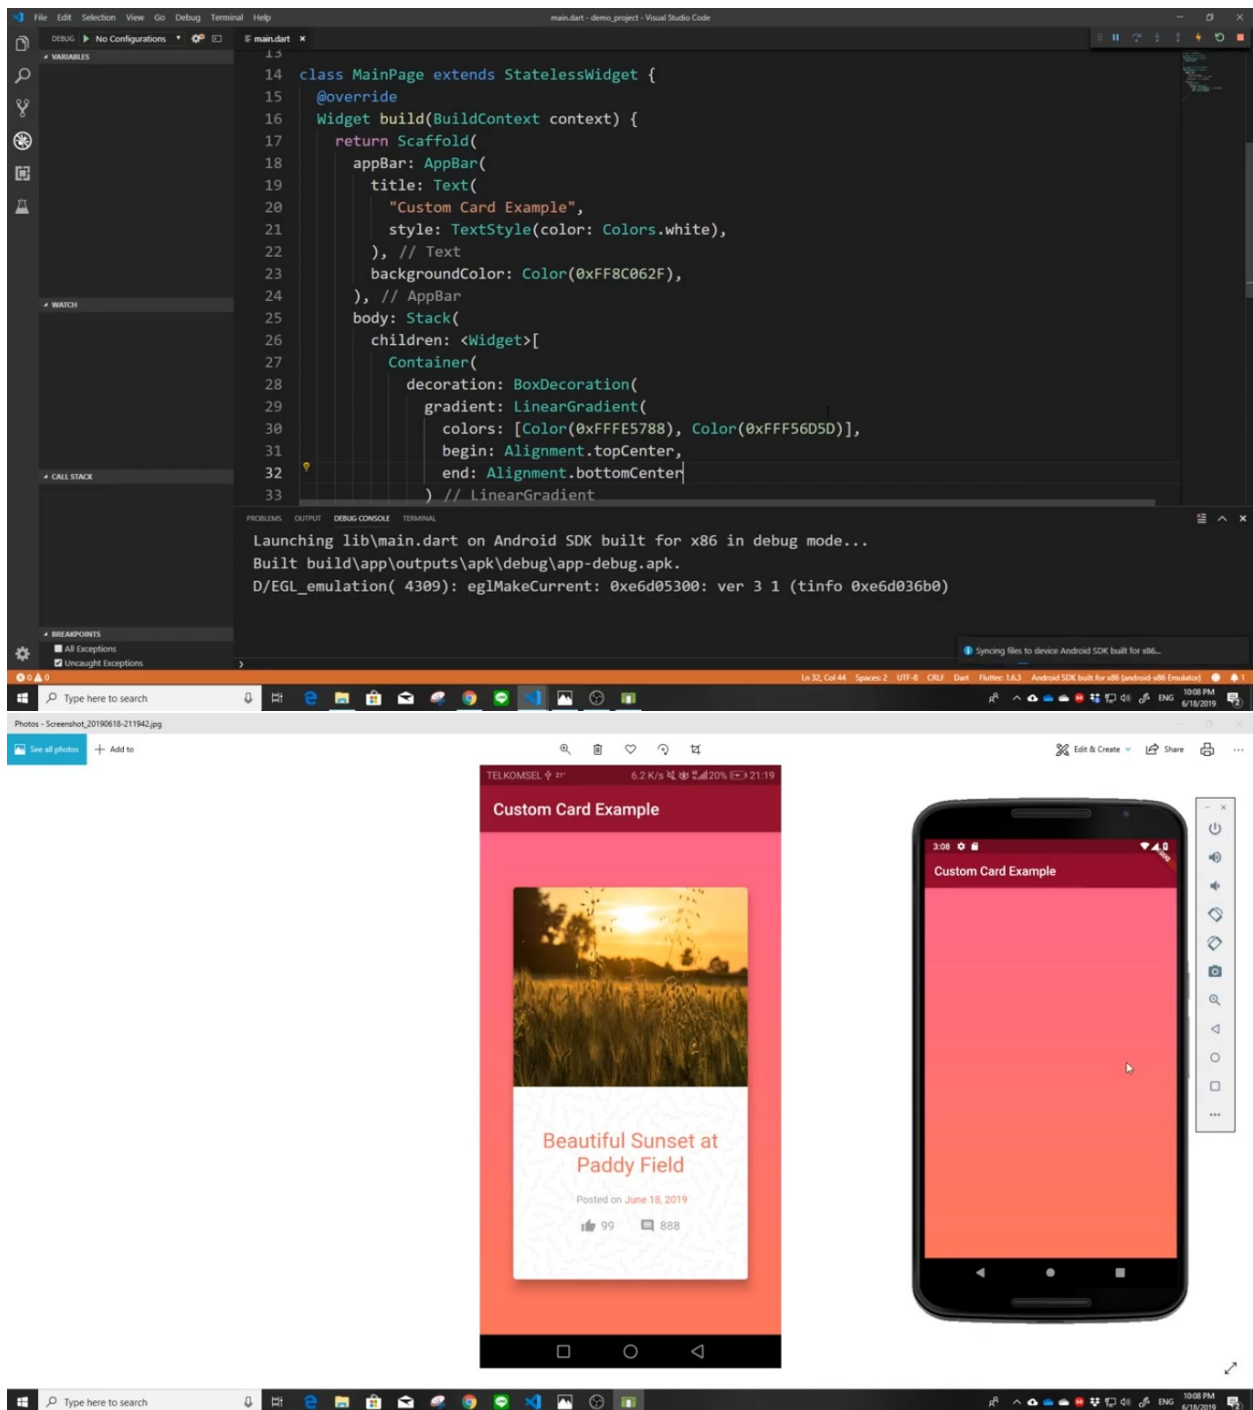

Project baru
Stl
Home nya bedakan

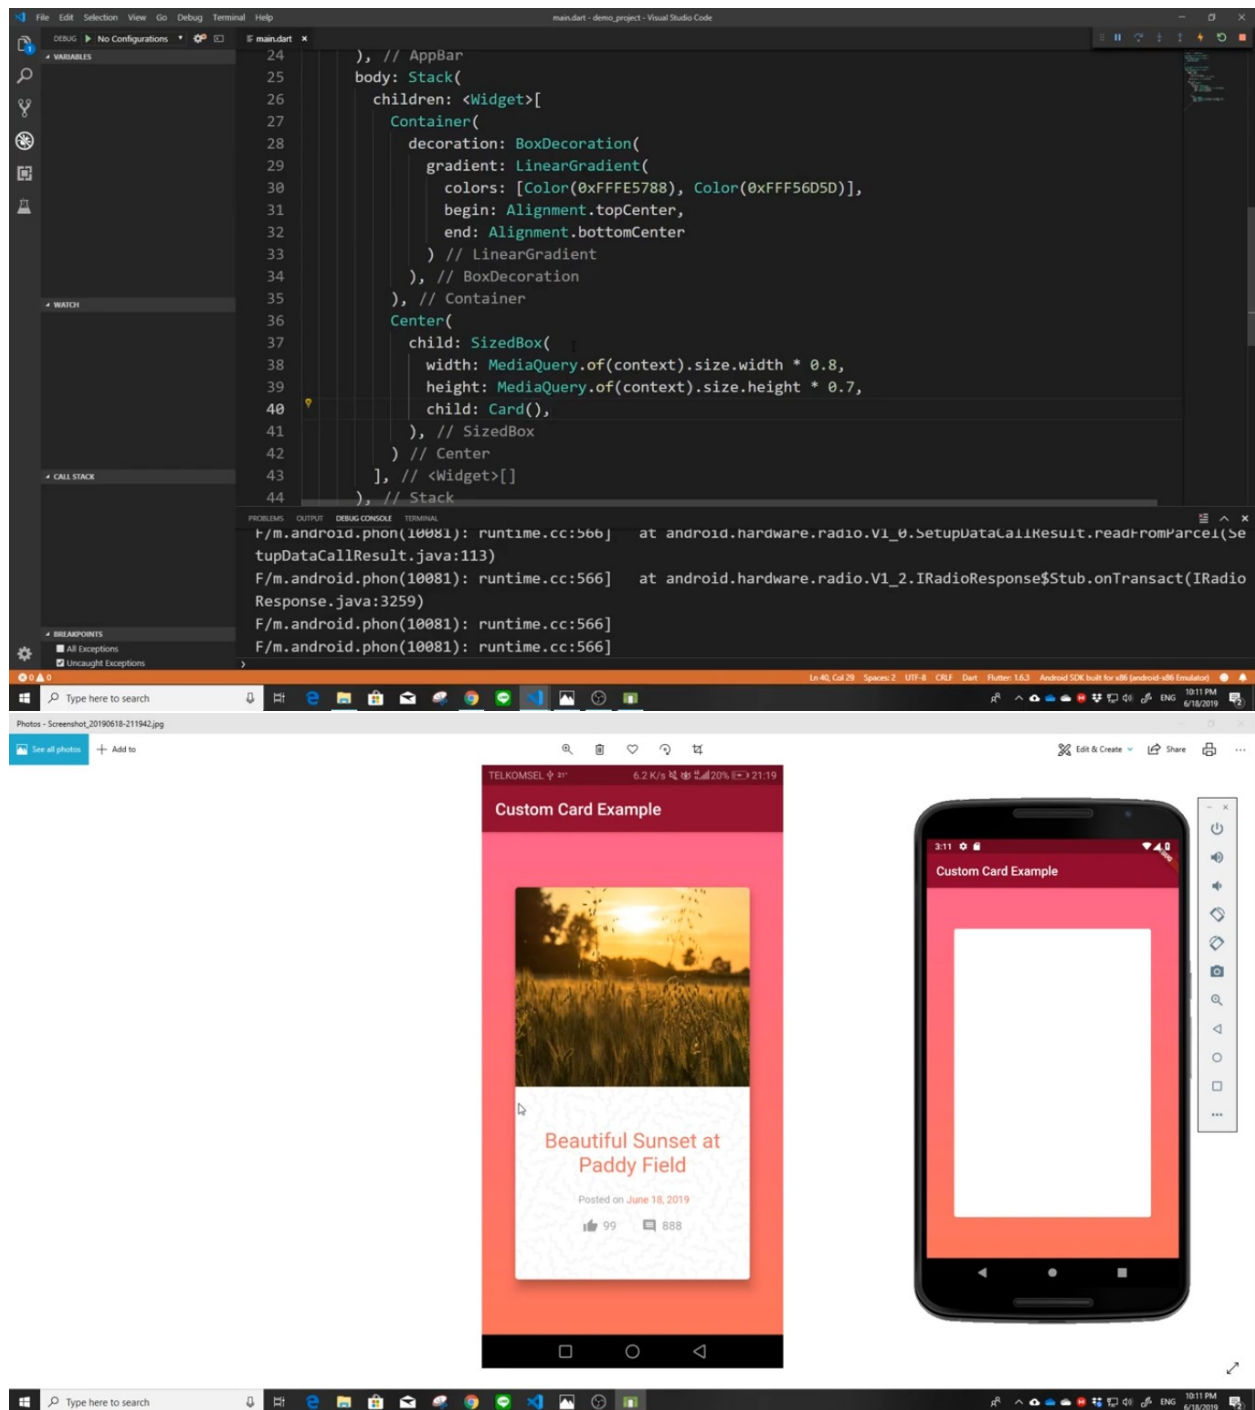

Supaya lebih cepat seharusnya bedkan file berbeda

Untuk body background radiasi
Jadi kasih container dahulu

Berikut card bagian depan menggunakan sizedbox
Lebar nya guna mediaquery agar sesuaikan

Pasang petter lalu kasih gambar
 Petter butuh stack
 Petter agak transparent butuh opacity

```
36 th: MediaQuery.of(context).size.width * 0.8,
37 hgt: MediaQuery.of(context).size.height * 0.7,
38 ld: Card(
39   nild: Stack(
40     children: <Widget>[
41       Opacity(
42         opacity: 0.7,
43         child: Container(
44           decoration: BoxDecoration(
45             image: DecorationImage(
46               image: NetworkImage(
47                 "https://www.toptal.com/designers/subtlepatterns/patterns/memphis-mini.png"), //
48               fit: BoxFit.cover)), // DecorationImage // BoxDecoration
49           ), // Container
50         ), // Opacity
51       ], // <Widget>[]
52     ], // Stack
53   ), // Card
54   SizedBox
55   nter
56   _deat>[]
```

PROBLEMS OUTPUT DEBUG CONSOLE TERMINAL

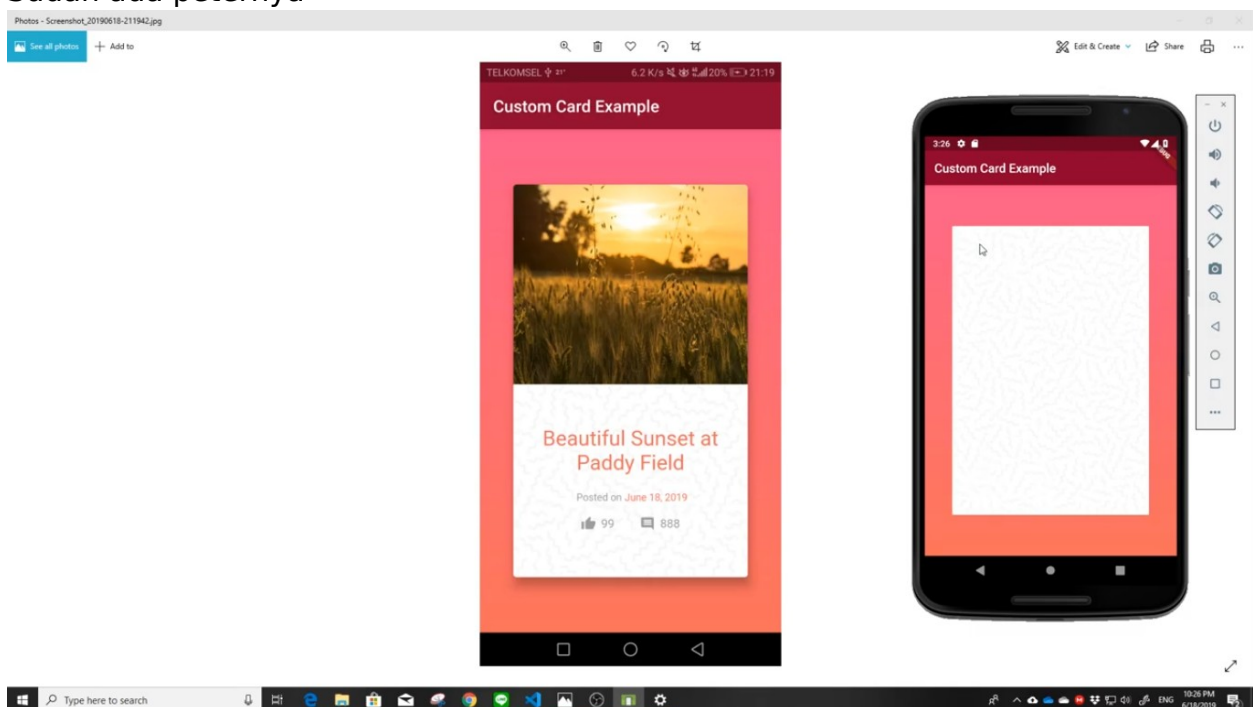

F/m.android.phon(13540): runtime.cc:558] native: #15 pc 0000d7b6 /system/lib/libutils.so (thread_data_t::trampoline(thread_data_t const*)+246)

F/m.android.phon(13540): runtime.cc:558] native: #16 pc 0008f065 /system/lib/libc.so (__pthread_start(void*)+53)

Reloaded 1 of 443 libraries in 716ms.

Sudah ada peternya

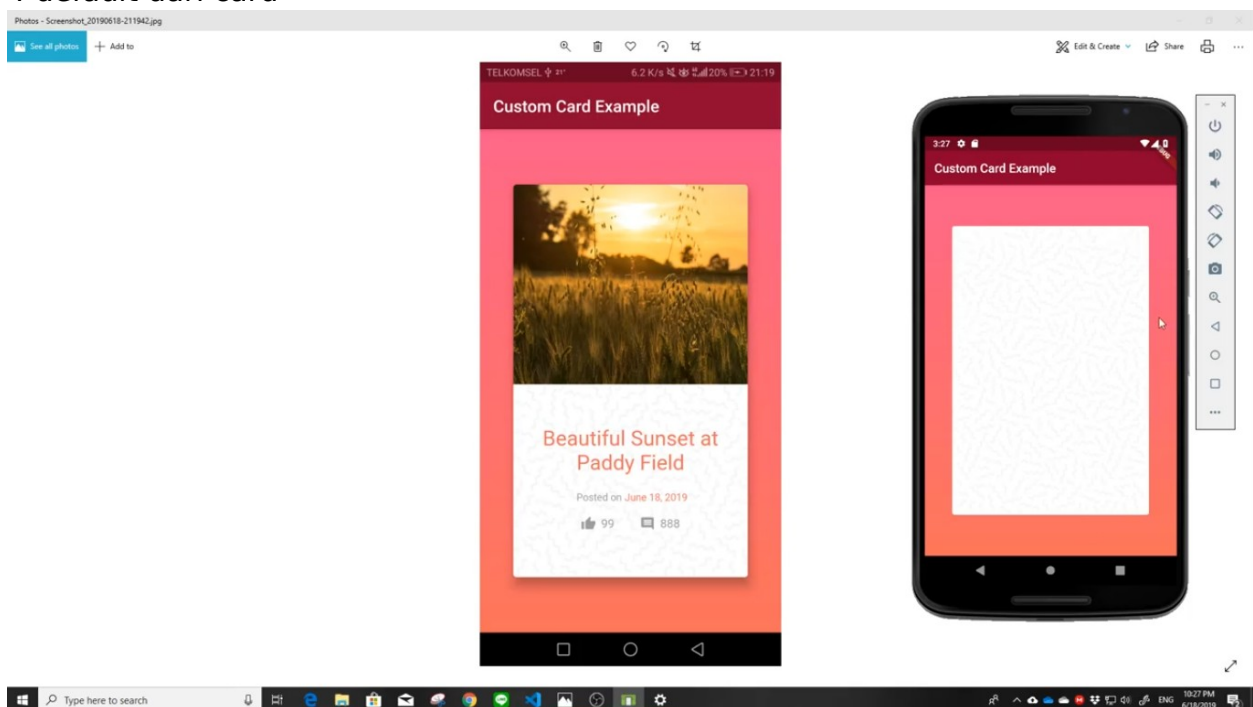

Buat melengkung

```
36 th: MediaQuery.of(context).size.width * 0.8,
37 ght: MediaQuery.of(context).size.height * 0.7,
38 ld: Card(
39  ild: Stack(
40    children: <Widget>[
41     Opacity(
42      opacity: 0.7,
43      child: Container(
44       decoration: BoxDecoration(
45        borderRadius: BorderRadius.circular(4),
46        image: DecorationImage(
47         image: NetworkImage(
48          "https://www.toptal.com/designers/subtlepatterns/patterns/memphis-mini.png"), //
49         fit: BoxFit.cover)), // DecorationImage // BoxDecoration
50      ), // Container
51     ), // Opacity
52   ], // <Widget>[]
53 , // Stack
54 // Card
55   SizedBox
56   nter
```

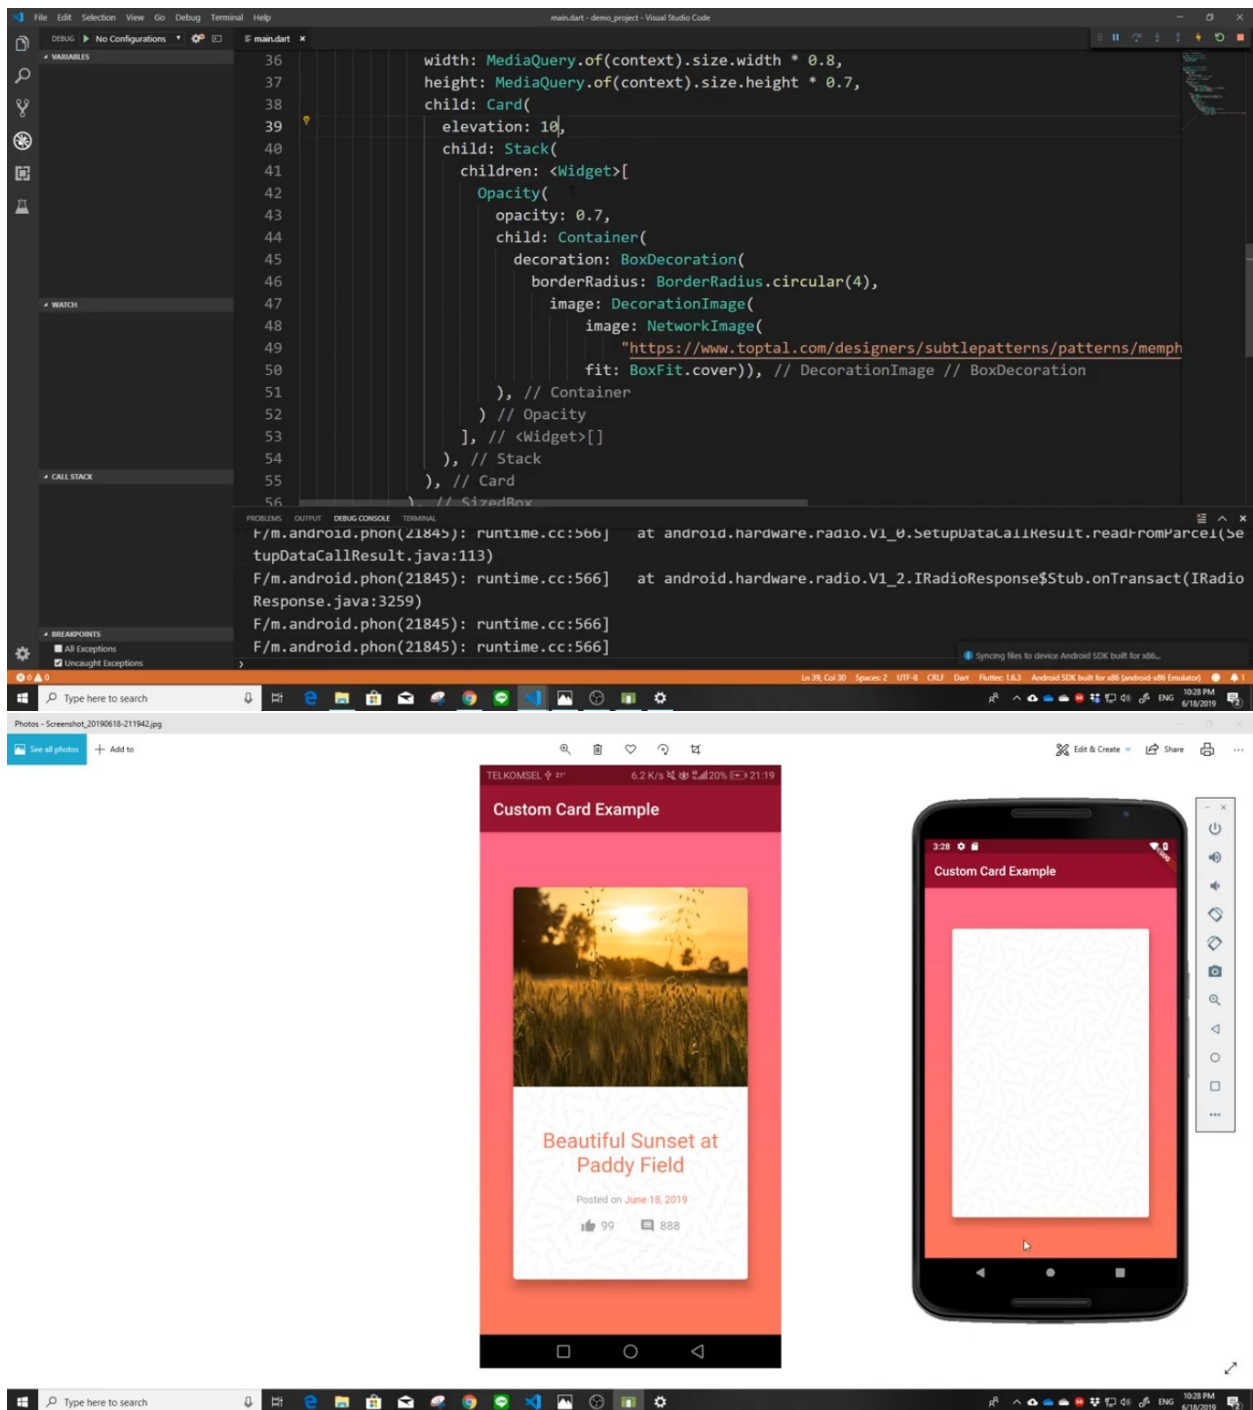

Terminal output:

```
F/m.android.phon(21202): runtime.cc:566] at android.hardware.radio.V1_0.SetupDataCallResult.readFromParcel(SetupDataCallResult.java:113)
F/m.android.phon(21202): runtime.cc:566] at android.hardware.radio.V1_2.IRadioResponse$Stub.onTransact(IRadioResponse.java:3259)
F/m.android.phon(21202): runtime.cc:566]
F/m.android.phon(21202): runtime.cc:566]
```

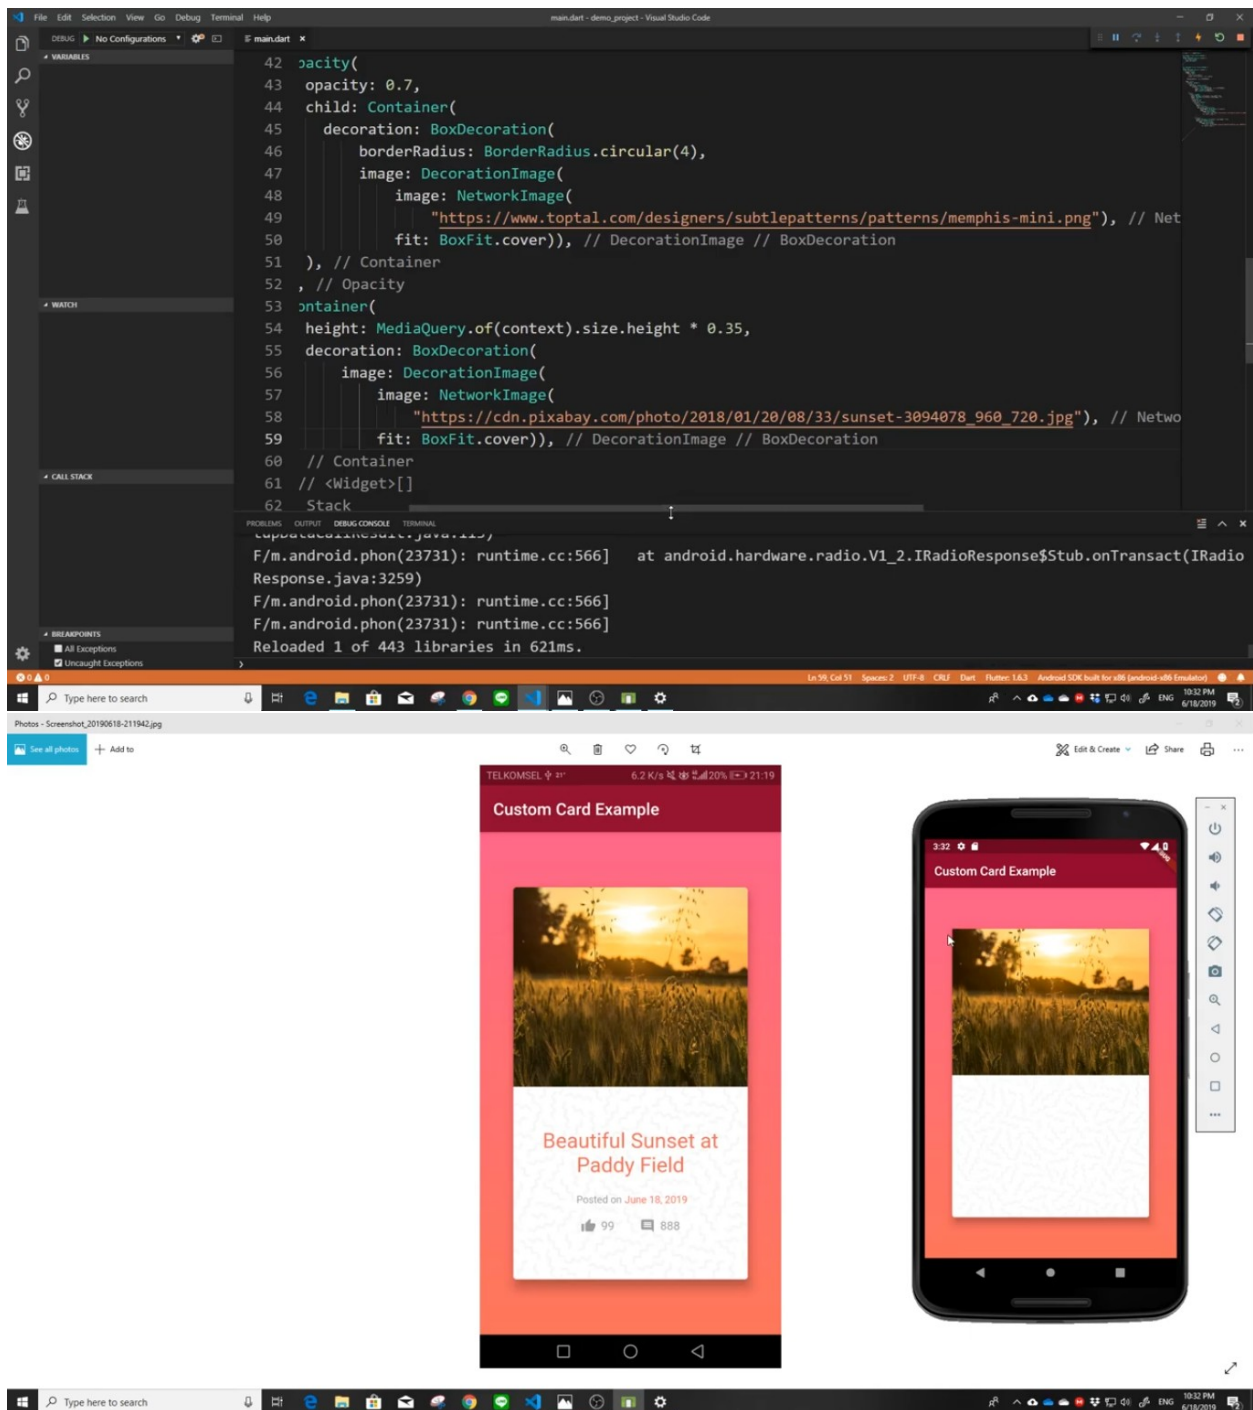

4 default dari card

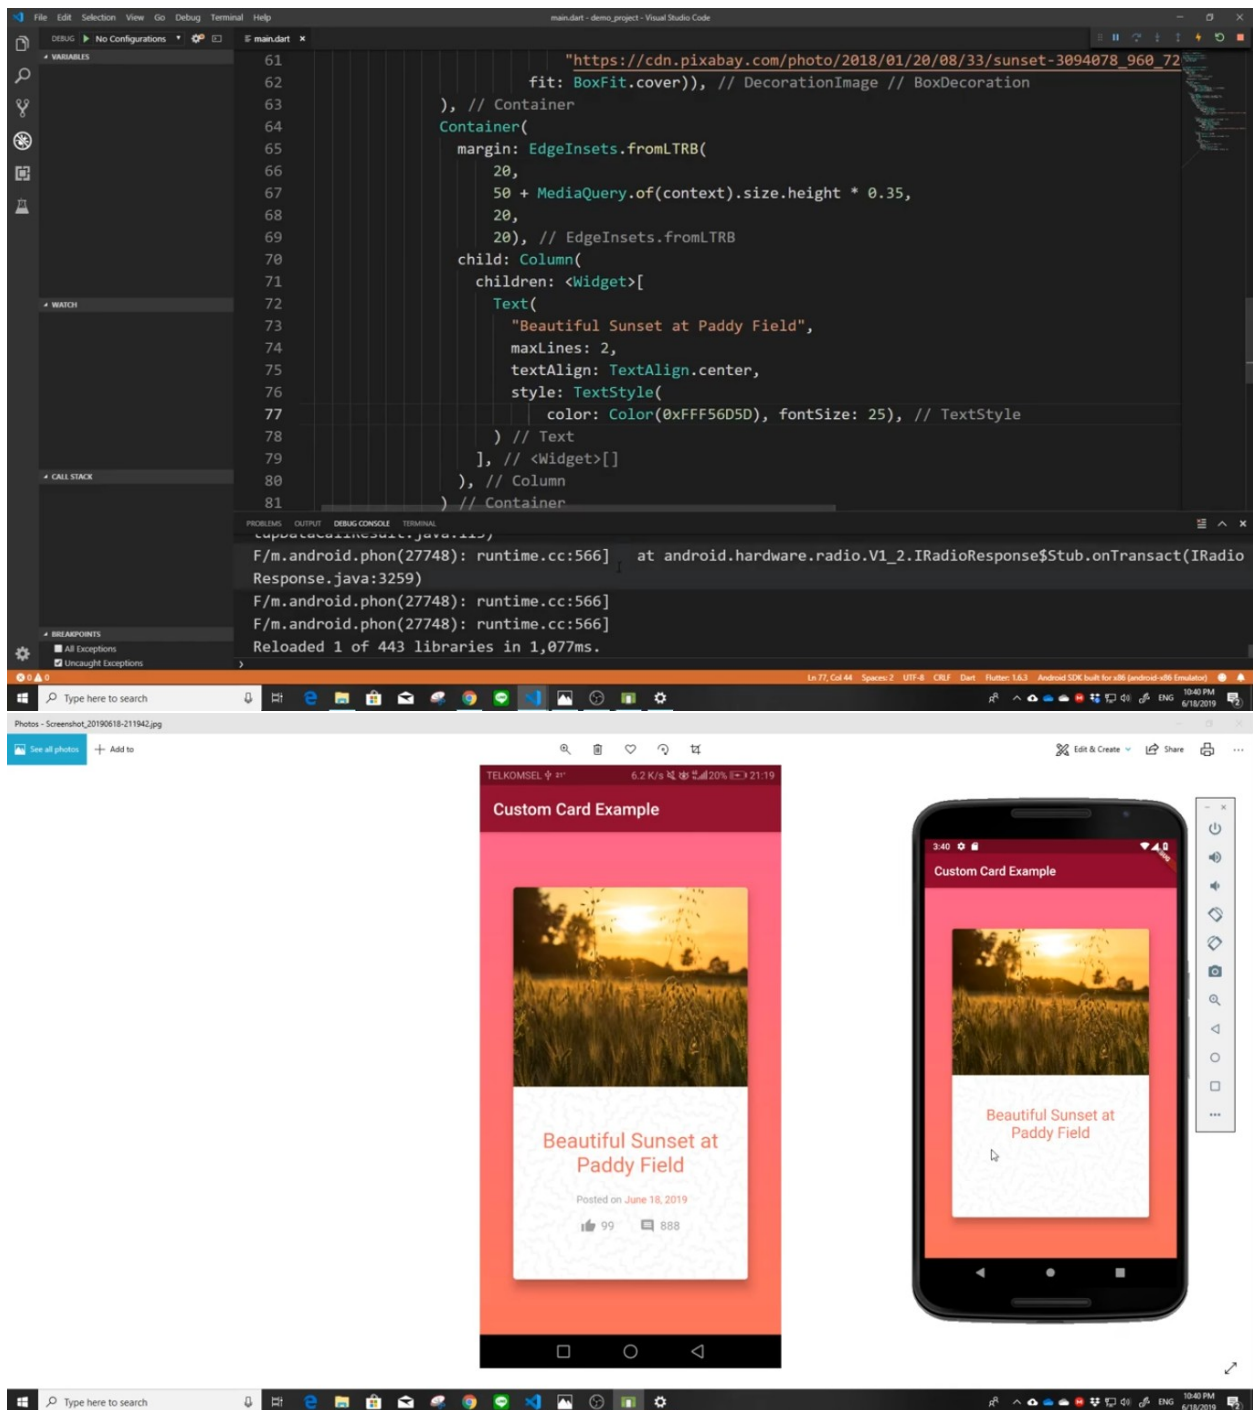

Card buat lebih angkat ada bayangan

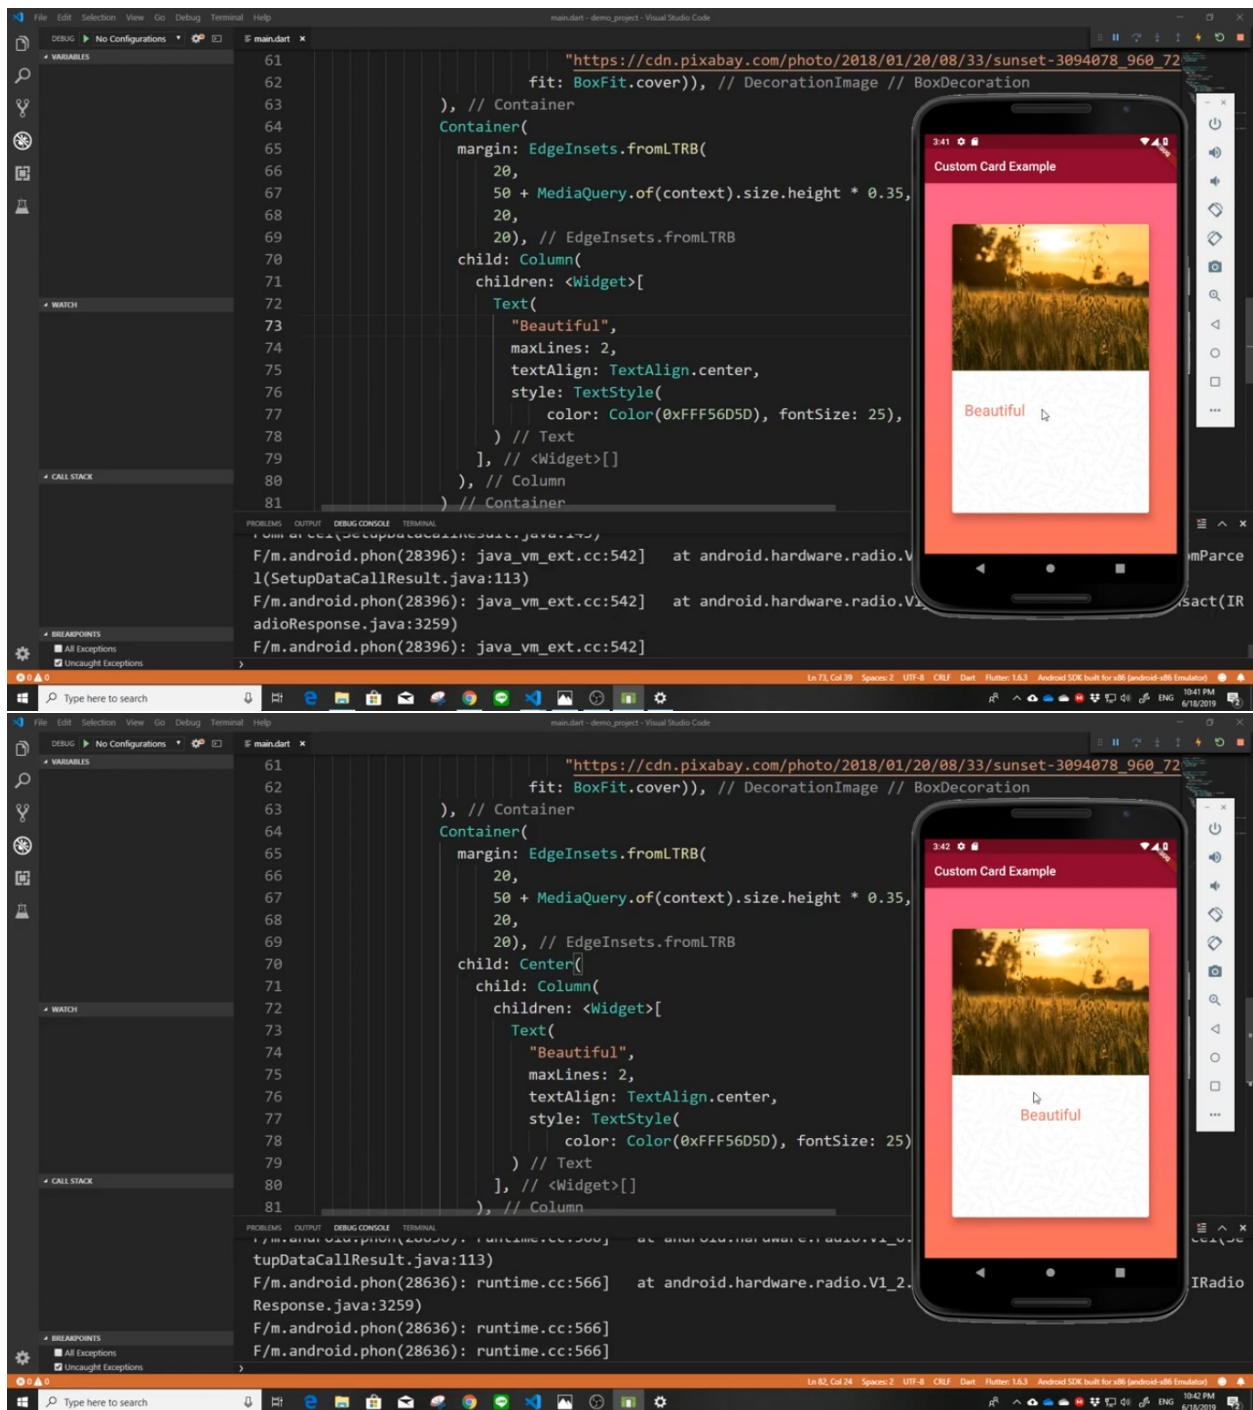

Tambahkn gambarnya setelah opacity

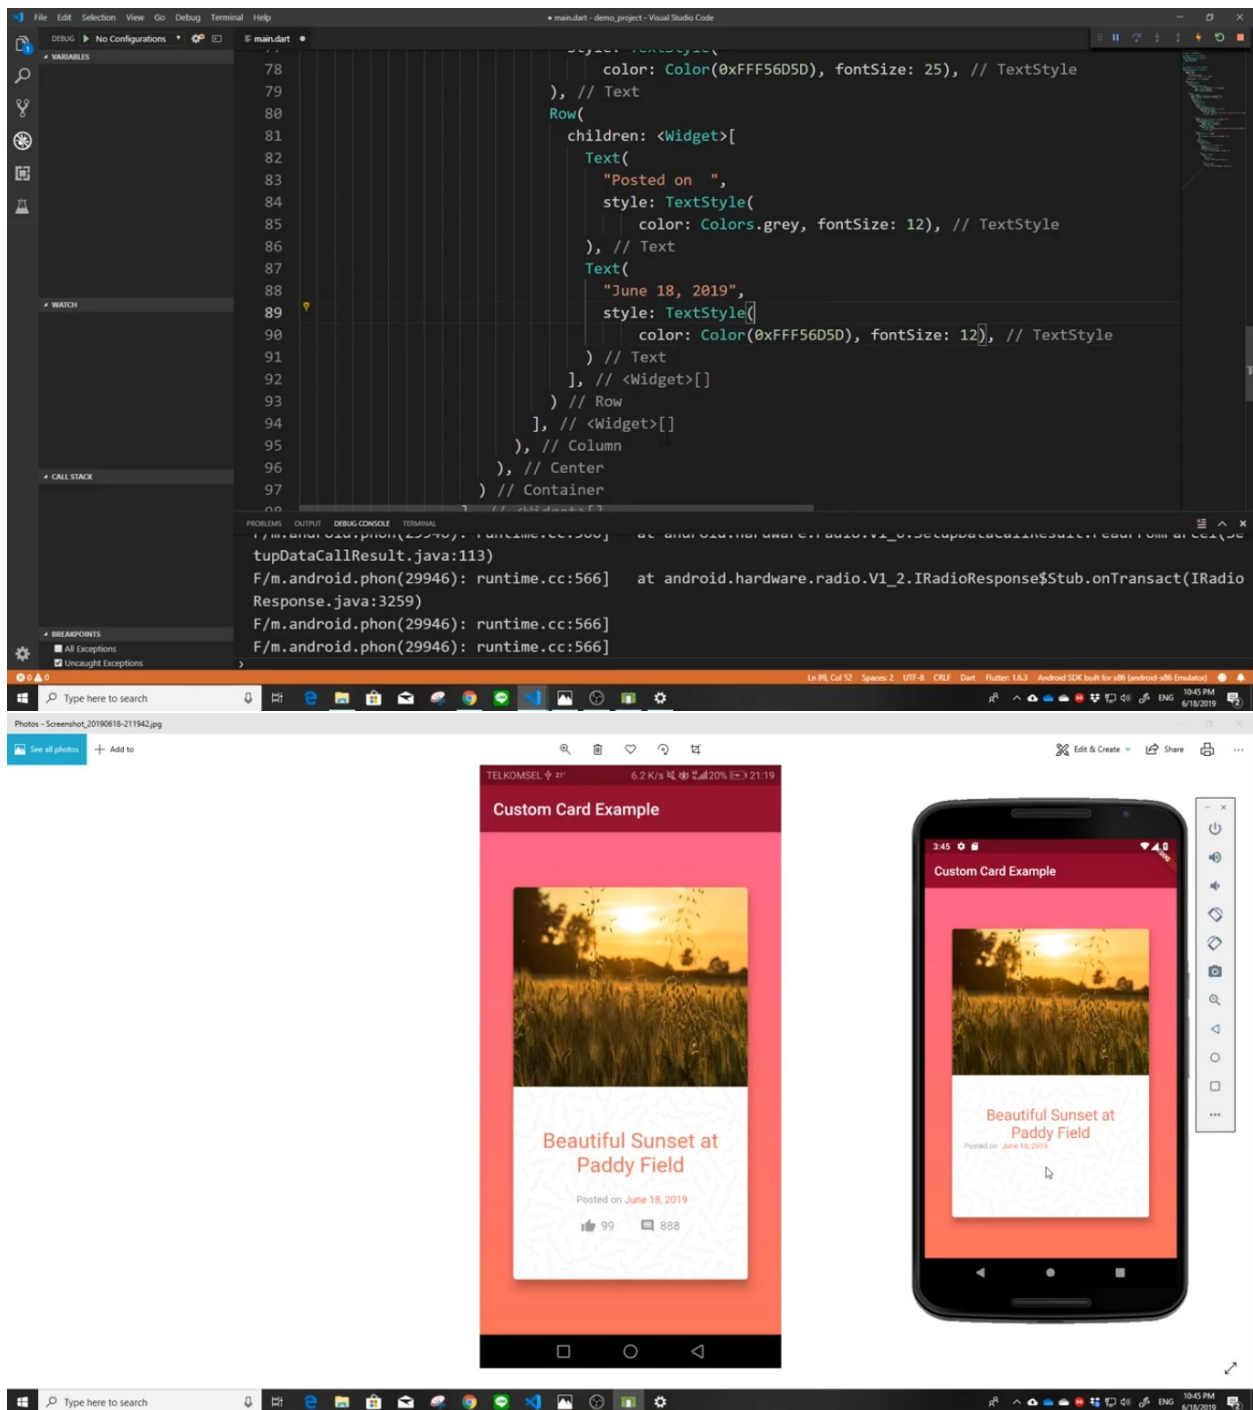

Ini lancip lagi
Disini bagian atas saja lancip

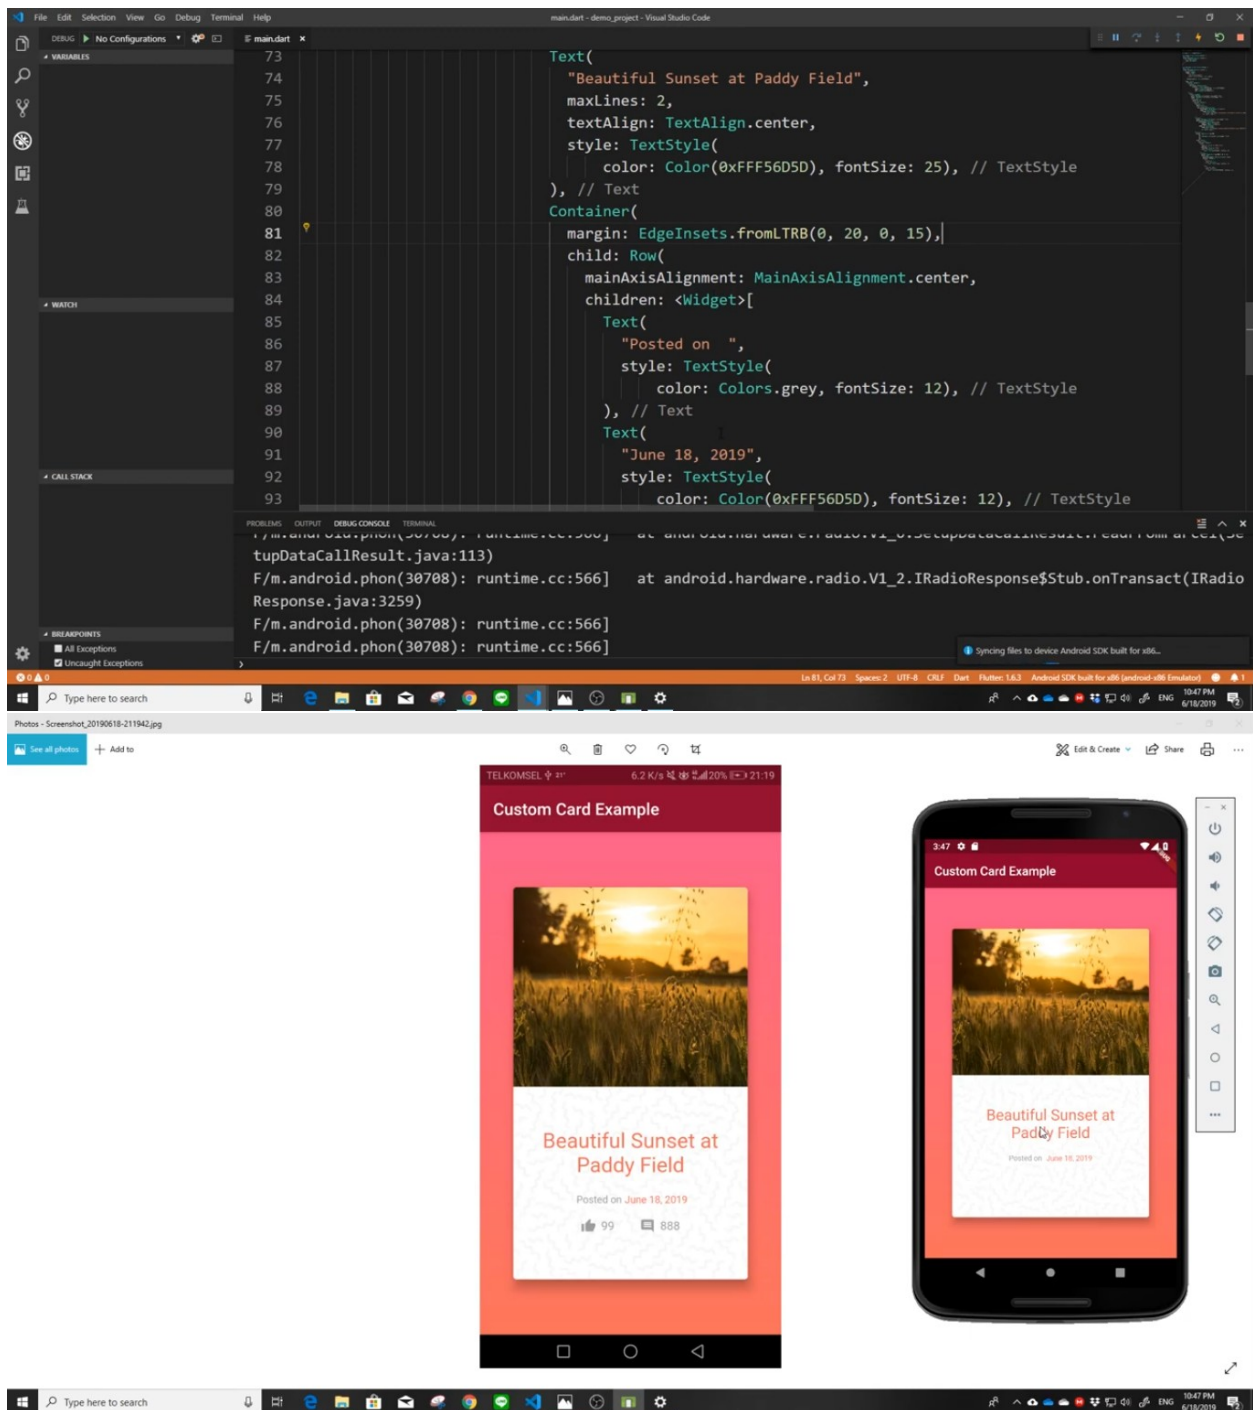

Untuk memastikan column ada ditengah maka bungkus dgn center
Disini text kalau sedikit belum ditenga maka pasang menjadi tengah

Kemudian dibawah harus dipasang row

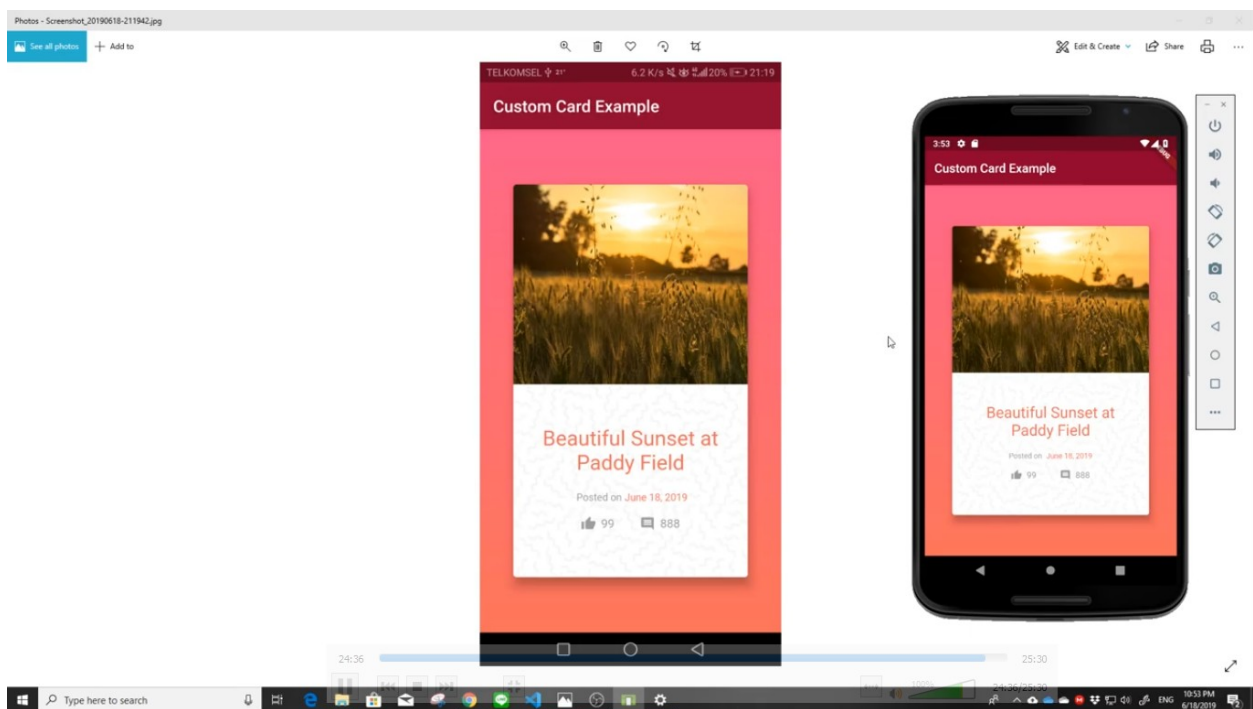

ini masih disumping
Kemudian kasih jarak

Berikutnya pasang tanda like ada jumlah nya dan tanda komentar
Kasih perbandingan jarak guna spacer

```
